VOLUME 74: SUBJECT INDEX

Abdomen circumference, Fetal growth velocity: kinetic, clinical, and biological aspects, **F10**

Acute lymphoblastic leukaemia, Treatment related deaths during induction and in first remission in acute lymphoblastic leukaemia: MRC UKALL X, **101**

Acute respiratory distress syndrome, Systemic complications associated with bacterial tracheitis, **249**

Acyclovir, Acyclovir in chickenpox: *correspondence*, **184**

Admission, Evaluation of appropriateness of paediatric admission: *current practice*, **268**

Adolescents, Asthma knowledge attitudes and quality of life in adolescence: *correspondence*, **367**

Agammaglobulinaemia, X linked agammaglobulinaemia with a 'leaky' phenotype, **548**

Aging, Estimation of the age of bruising, **53**

AIDS, Vertical transmission of Kaposi's sarcoma, **455**

Airway haemangioma, Steroids for intubated croup masking airway haemangioma, **66**

Alagille's syndrome, Alagille's syndrome associated with cystic renal disease, **232**

Alkaline phosphatase, Diagnosis and clinical associations of zinc depletion following bone marrow transplantation, **328**

Allergy, Family structure, neonatal infection, and hay fever in adolescence, **422**

Amino acids, Amino acid profile in Down's syndrome, **347**

Amoebic liver abscess, Amoebic liver abscess: *Archivist*, **223**

Anaemia of prematurity, Factors related to transfusion in very low birthweight infants treated with erythropoietin, **F182**

Analgesia

Effect of non-sucrose sweet tasting solution on neonatal heel prick response, **F129**

Reduction of pain response in premature infants using intraoral sucrose, **F126**

Anorectal malformation, Abnormal anatomy of the lumbosacral region imaged by magnetic resonance in children with anorectal malformations, **441**

Antenatal diagnosis, Antenatal diagnosis of cystic hygroma or nuchal pad – report of 92 cases with follow up of survivors, **F38**

Anticoagulant control, Oral anticoagulation in paediatric patients: dose requirements and complications, **228**

Aplastic anaemia, Severe aplastic anaemia in the Nordic countries: a population based study of incidence, presentation, course, and outcome, **319**

Appropriateness, Evaluation of appropriateness of paediatric admission: *current practice*, **268**

Arterial oxygen saturation, Continuous central venous oxygen saturation ($ScvO_2$) measurement using a fibre optic catheter in newborn infants, **F177**

Aspirin

Aspirin treatment and increased generation of cysteinyl leukotrienes in Kawasaki disease: *correspondence*, **90**

The changing clinical pattern of Reye's syndrome 1982-1990, **400**

Asthma

Asthma knowledge attitudes and quality of life in adolescence: *correspondence*, **367**

Longitudinal study of free running exercise challenge: reproducibility, **108**

Prevalence and severity of asthma, rhinitis, and eczema in Singapore schoolchildren, **131**

Recurrent wheezing in very preterm infants, **F165**

Attendance, Patient characteristics affecting attendance at general outpatient clinics, **121**

Audit, Audit of height measurement at age 3 years: results of a survey of Scottish health boards, **332**

Autoimmune hepatitis, Autoimmune hepatitis: *annotation*, **2**

Autologous umbilical cord blood transfusion, Autologous umbilical cord blood transfusion: *correspondence*, **F221**

Auxological characteristics, Endocrinology and auxology of sibships with non-classical congenital adrenal hyperplasia, **406**

Bacterial tracheitis, Systemic complications associated with bacterial tracheitis, **249**

Bangladesh, Are cyclospora an important cause of diarrhoea in Bangladesh? *correspondence*, **90**

BCG, Does BCG vaccine prevent tuberculous meningitis? **144**

Benign partial epilepsy, Benign partial epilepsy in infancy, **19**

Bereavement care, A study of bereavement care after a sudden and unexpected death, **522**

Berger's disease, Alteration of lung diffusion capacity in IgA nephropathy, **236**

Beta cell, Ionic control of beta cell function in nesidioblastosis. A possible therapeutic role for calcium channel blockade, **373**

Betaine, Long term treatment with betaine in methylenetetrahydrofolate reductase deficiency, **239**

Birth trauma, Is permanent congenital facial palsy caused by birth trauma? **56**

Birth weight, Placental weight, birth measurements, and blood pressure at age 8 years, **538**

Blood pressure

Blood pressure and smoking: observations on a national cohort: *correspondence*, **367**

Placental weight, birth measurements, and blood pressure at age 8 years, **538**

Body composition

Standards for total body fat and fat-free mass in infants, **386**

Total energy expenditure in small for gestational age infants, **F208**

Body temperature

Breathing, sleep state, and rectal temperature oscillations, **427**

Thermal stability of premature infants during routine care under radiant warmers, **F137**

Bone marrow transplantation

Diagnosis and clinical associations of zinc depletion following bone marrow transplantation, **328**

Final height of patients who underwent bone marrow transplantation during childhood, **437**

Lung function after allogeneic bone marrow transplantation for leukaemia or lymphoma, **432**

Bone mineral content, Bone mineral content in cystic fibrosis patients: correlation with fat-free mass, **314**

Bowel, Hyperechogenic fetal bowel: *annotation*, **F1**

Brachyolmia, Toledo type brachyolmia: *correspondence*, **184**

Brain damage, Preventing brain damage: *Archivist*, **114**

Brain injury, Posthypoxic cooling of neonatal rats provides protection against brain injury, **F3**

Brain tumours

An intensive multiagent chemotherapy regimen for brain tumours occurring in very young children, **219**

Why are brain tumours still being missed? **148**

Breast milk, Effect of fortifying breast milk on gastric emptying, **F60**

Breastfeeding, Randomised clinical trial of parenteral selenium supplementation in preterm infants, **F158**

Breathing, Assessment of pulmonary mechanics and breathing patterns during posturally induced glossoptosis in infants, **512**

Brittle bone disease, Osteogenesis imperfecta, non-accidental injury, and temporary brittle bone disease: *correspondence*, **91**

Bronchiolitis, Deprivation and bronchiolitis, **50**

Bronchoalveolar lavage, Differential cytology of bronchoalveolar lavage fluid in immunosuppressed children with pulmonary infiltrates, **507**

Bronchodilators, Recurrent wheezing in very preterm infants, **F165**

Bronchopulmonary dysplasia, Prediction of early outcome in resolving chronic lung disease of prematurity after discharge from hospital, **304**

Bruising, Estimation of the age of bruising, **53**

Caesarean section, Endocrine and metabolic adaptation following caesarean section or vaginal delivery, **F132**

Calcium channel, Ionic control of beta cell function in nesidioblastosis. A possible therapeutic role for calcium channel blockade, **373**

Calman report, Implications of the Calman report on child health and paediatrics: *current topic*, **260**

Calprotectin, Calprotectin as a marker of inflammation in cystic fibrosis, **136**

Candidiasis, Fungus through the very premature skin: *Archivist*, **349**

Capillary blood sampling, Capillary blood sampling: should the heel be warmed? **F139**

Capillary haemangioma, Role of the pulsed dye laser in the management of ulcerated capillary haemangiomas, **161**

Carbohydrate deficient glycoprotein syndrome, Normal pubertal development in a female with carbohydrate deficient glycoprotein syndrome, **242**
Cardiac arrest, Paediatricians' knowledge of cardiac arrest guidelines, **47**
Cardiac output, Early determinants of right and left ventricular output in ventilated preterm infants, **F88**
L-Carnitine, L-Carnitine: *annotation*, **475**
CATCH 22, Chromosome 22q11 microdeletions in tetralogy of Fallot, **62**
Catchup growth, Nucleotide supplementation and the growth of term small for gestational age infants, **F122**
Caudal regression syndrome, Abnormal anatomy of the lumbosacral region imaged by magnetic resonance in children with anorectal malformations, **441**
CD40 ligand
CD40 ligand deficiency presenting as unresponsive neutropenia, **458**
CD40 ligand expression on the surface of colostral T cells, **F135**
Centile charts, The potential effect of the UK 1990 height centile charts on community growth surveillance, **452**
Central venous oxygen saturation, Continuous central venous oxygen saturation ($ScvO_2$) measurement using a fibre optic catheter in newborn infants, **F177**
Cerebral blood flow, Cerebral blood flow in the newborn infant: *current topic*, **F63**
Cerebral energy metabolism, Cerebral energy metabolism in isovaleric acidaemia, **F211**
Cerebral metabolic rate for glucose, Cerebral metabolic rate for glucose during the first six months of life: an FDG positron emission tomography study, **F153**
Cerebral palsy
Life expectancy in cerebral palsy: *Archivist*, **209**
The effect of a child's disability on mother's mental health, **115**
Ultrasound findings and clinical antecedents of cerebral palsy in very preterm infants, **F105**
Cerebrospinal fluid
3-Phosphoglycerate dehydrogenase deficiency: an inborn error of serine biosynthesis, **542**
Cerebrospinal fluid soluble L-selectin (sCD62L) in meningoencephalitis, **288**
Chemotherapy, An intensive multiagent chemotherapy regimen for brain tumours occurring in very young children, **219**
Chickenpox, Acyclovir in chickenpox: *correspondence*, **184**
Child health
Implications of the Calman report on child health and paediatrics: *current topic*, **260**
Maternal HIV and drug use: effect on health and social morbidity, **210**
Childhood visual impairment, Vision impairment in Liverpool: prevalence and morbidity, **299**
Choanal atresia, Assessment of pulmonary mechanics and breathing patterns during posturally induced glossoptosis in infants, **512**
Chromosome microdeletions
Chromosome 22q11 microdeletions in tetralogy of Fallot, **62**
Clinical and molecular cytogenetic (FISH) diagnosis of Williams syndrome, **59**
Chronic lung disease
Chronic lung disease and subsequent respiratory symptoms: *correspondence*, **F151**
Failure of early postnatal dexamethasone to prevent chronic lung disease in infants with respiratory distress syndrome, **F33**
Prediction of early outcome in resolving chronic lung disease of prematurity after discharge from hospital, **304**
Chronic renal failure, Recombinant human growth hormone treatment in infants with chronic renal failure, **40**
Cirrhosis, Long term survival in Indian childhood cirrhosis treated with D-penicillamine, **32**
Citrates, Hypocitraturia in patients with urolithiasis, **350**
Cleft lip and palate, Management of cleft lip and palate: *personal practice*, **360**
Clinical risk index for babies, CRIB and performance indicators for neonatal intensive care units (NICUs): *correspondence*, **F79**
Clinical trials, Recruiting patients to clinical trials: lessons from studies of growth hormone treatment in renal failure: *correspondence*, **91**
Co-trimoxazole, Are cyclospora an important cause of diarrhoea in Bangladesh? *correspondence*, **90**
Coagulase negative staphylococci, Reservoirs of coagulase negative staphylococci in preterm infants, **F99**
Coeliac disease, High incidence of urinary tract infection in patients with coeliac disease, **170**
Colestipol, Low dose colestipol in adolescents with familial hypercholesterolaemia, **157**
Colonic strictures
Do children with hepatic cirrhosis complicating cystic fibrosis receive too much pancreatic enzyme? *correspondence*, **88**
Fibrosing colonopathy in cystic fibrosis: *current topic*, **464**; *commentary*, **466**
Colonoscopy, Investigating inflammatory bowel disease – white cell scanning, radiology, and colonoscopy, **22**
Colostrum, CD40 ligand expression on the surface of colostral T cells, **F135**
Community surveillance, The potential effect of the UK 1990 height centile charts on community growth surveillance, **452**
Conduct disorders, Intensive interventions in conduct disorders: *current topic*, **352**
Congenital adrenal hyperplasia, Endocrinology and auxology of sibships with non-classical congenital adrenal hyperplasia, **406**
Congenital dislocation of the hip, A national survey of screening for congenital dislocation of the hip, **445**
Congenital hypothyroidism, Mild impairment of neuro-otological function in early treated congenital hypothyroidism, **215**
Contact tracing, Transmission of tuberculosis to contacts of sputum positive adults in Malawi, **140**
Continuing medical education, Continuing medical education for paediatricians, **68**
Copper, Long term survival in Indian childhood cirrhosis treated with D-penicillamine, **32**
Cord-blood antibodies, Seroepidemiological study of *Helicobacter pylori* infection in infancy, **F141**
Core head temperature, Effect of radiant heat on head temperature gradient in term infants, **F200**
Correction, **F152**
Cost, Cost of care for a geographically determined population of low birthweight infants to age 8-9 years. I. Children without disability, **F114**; II. Children with disability, **F118**
Cough, How much coughing is normal? **531**
CRIB, CRIB and performance indicators for neonatal intensive care units (NICUs): *correspondence*, **F79**
Crohn's disease, The epidemiology of paediatric inflammatory bowel disease, **460**
Cross infection, Reservoirs of coagulase negative staphylococci in preterm infants, **F99**
Croup, Steroids for intubated croup masking airway haemangioma, **66**
Cutaneous polyarteritis nodosa, Cutaneous polyarteritis nodosa: *correspondence*, **367**
Cyclospora, Are cyclospora an important cause of diarrhoea in Bangladesh? *correspondence*, **90**
Cysteinyl leukotrienes, Aspirin treatment and increased generation of cysteinyl leukotrienes in Kawasaki disease: *correspondence*, **90**
Cystic fibrosis
Bone mineral content in cystic fibrosis patients: correlation with fat-free mass, **314**
Calprotectin as a marker of inflammation in cystic fibrosis, **136**
Do children with hepatic cirrhosis complicating cystic fibrosis receive too much pancreatic enzyme? *correspondence*, **88**
Fibrosing colonopathy in cystic fibrosis: *current topic*, **464**; *commentary*, **466**
Lung resection in cystic fibrosis patients with localised pulmonary disease, **449**
Nutritional management of cystic fibrosis: *personal practice*, **81**
Cystic hygroma, Antenatal diagnosis of cystic hygroma or nuchal pad – report of 92 cases with follow up of survivors, **F38**

Dantrolene, Haemorrhagic shock encephalopathy syndrome presenting with myoglobinuria, **168**
Day care, Out-of-home day care and health: *current topic*, **73**
Deafness
Aetiology of bilateral sensorineural hearing impairment in children: a 10 year study, **8**
Neonatal otoacoustic emission screening and the identification of deafness, **F16**
Dehydration, Hyponatraemia and dehydration in severe malaria, **201**
Depression, The effect of a child's disability on mother's mental health, **115**
Deprivation, Deprivation and bronchiolitis, **50**
Desferrioxamine, Logarithmic quantitation model using serum ferritin to estimate iron overload in secondary haemochromatosis, **323**
Dexamethasone, Failure of early postnatal dexamethasone to prevent chronic lung disease in infants with respiratory distress syndrome, **F33**

Diabetes, Foot pathology in insulin dependent diabetes: *correspondence*, **368**
Diabetes mellitus
Family stress and metabolic control in diabetes, **418**
X-linked immune dysregulation, neonatal insulin dependent diabetes, and intractable diarrhoea, **F195**
Diarrhoea
Are cyclospora an important cause of diarrhoea in Bangladesh? *correspondence*, **90**
Diagnosis and clinical associations of zinc depletion following bone marrow transplantation, **328**
X-linked immune dysregulation, neonatal insulin dependent diabetes, and intractable diarrhoea, **F195**
Diet
Factors affecting the variation in plasma phenylalanine in patients with phenylketonuria on diet, **412**
Nutritional management of cystic fibrosis: *personal practice*, **81**
Dilated cardiomyopathy, Dilated cardiomyopathy: *annotation*, **479**
Disability
Cost of care for a geographically determined population of low birthweight infants to age 8-9 years. I. Children without disability, **F114**; II. Children with disability, **F118**
The effect of a child's disability on mother's mental health, **115**
Doppler echocardiography
Early determinants of right and left ventricular output in ventilated preterm infants, **F88**
Haemodynamic changes during high frequency oscillation for respiratory distress syndrome, **F172**
Haemodynamic features at presentation in persistent pulmonary hypertension of the newborn and outcome, **F26**
Down's syndrome, Amino acid profile in Down's syndrome, **347**
Drug use, Maternal HIV and drug use: effect on health and social morbidity, **210**
Duchenne muscular dystrophy, Disclosure of Duchenne muscular dystrophy after newborn screening: *personal practice*, **550**
Ductus arteriosus shunt, Early determinants of right and left ventricular output in ventilated preterm infants, **F88**

Echocardiography, Pulmonary vascular resistance during lipid infusion in neonates, **F95**
ECMO
Plasma lactate as a predictor of early childhood neurodevelopmental outcome of neonates with severe hypoxaemia requiring extracorporeal membrane oxygenation, **F47**
Role of ECMO in neonatal myocardial infarction, **F143**
Eczema, Prevalence and severity of asthma, rhinitis, and eczema in Singapore schoolchildren, **131**
Elastin gene, Clinical and molecular cytogenetic (FISH) diagnosis of Williams syndrome, **59**
Emergency, Short stay facilities: the future of efficient paediatric emergency services, **309**
Endocrine adaptation, Endocrine and metabolic adaptation following caesarean section or vaginal delivery, **F132**
Energy expenditure, Total energy expenditure in small for gestational age infants, **F208**
Entamoeba histolytica, Amoebic liver abscess: *Archivist*, **223**
Enterovirus, Enteroviral pharyngitis diagnosed by reverse transcriptase-polymerase chain reaction, **462**
Environmental research, Smoking and other health related behaviour in the social and environmental context: *current topic*, **176**
Epilepsy
Benign partial epilepsy in infancy, **19**
Life expectancy in cerebral palsy: *Archivist*, **209**
Prognosis in epilepsy: *Archivist*, **175**
Epstein-Barr virus, The role of Epstein-Barr virus in Hodgkin's disease from different geographical areas, **27**
Erythrocyte deformability, Group B streptococcus impairs erythrocyte deformability in neonates more than in adults, **F187**
Erythropoietin, Factors related to transfusion in very low birthweight infants treated with erythropoietin, **F182**
Ethics, Improving awareness of ethical issues, **172**
Ethnic communities, Meeting the needs of minority ethnic communities: *personal view*, **264**
Evoked potentials, Use of evoked potentials in preterm neonates: *current topic*, **F70**
Evolution, High evolutionary theory: *Archivist*, **194**
Examinations, Writing and marking examinations for paediatrics, **469**
Exercise testing, Longitudinal study of free running exercise challenge: reproducibility, **108**
Exosurf
Changes in pulmonary artery pressure in infants with respiratory distress syndrome after treatment with Exosurf: *correspondence*, **F151**
Indirect estimates of pulmonary artery pressure: *correspondence*, **F79**
Extracorporeal membrane oxygenation
Plasma lactate as a predictor of early childhood neurodevelopmental outcome of neonates with severe hypoxaemia requiring extracorporeal membrane oxygenation, **F47**
Role of ECMO in neonatal myocardial infarction, **F143**
Extreme prematurity, Impact of extremely immature infants on neonatal services, **F110**

Facial palsy, Is permanent congenital facial palsy caused by birth trauma? **56**
Falciparum malaria, Renal function in acute falciparum malaria, **293**
Familial hypercholesterolaemia, Low dose colestipol in adolescents with familial hypercholesterolaemia, **157**
Family, Family stress and metabolic control in diabetes, **418**
Fat-free mass
Standards for total body fat and fat-free mass in infants, **386**
Total energy expenditure in small for gestational age infants, **F208**
Febrile convulsions, Long term outcome of prophylaxis for febrile convulsions, **13**
Feed tolerance, Effect of fortifying breast milk on gastric emptying, **F60**
Feeding, Family structure, neonatal infection, and hay fever in adolescence, **422**
Femur length, Fetal growth velocity: kinetic, clinical, and biological aspects, **F10**
Ferritin
Haemoglobin and ferritin concentrations in infants at 8 months of age, **36**
Logarithmic quantitation model using serum ferritin to estimate iron overload in secondary haemochromatosis, **323**
Fetal growth velocity, Fetal growth velocity: kinetic, clinical, and biological aspects, **F10**
Fetal haemoglobin, Factors affecting prepubertal growth in homozygous sickle cell disease, **502**
Fever
Comparing efficacy and tolerability of ibuprofen and paracetamol in fever, **164**
Metabolic rate in febrile infants, **206**
Fibre optic catheter, Continuous central venous oxygen saturation ($ScvO_2$) measurement using a fibre optic catheter in newborn infants, **F177**
Fibrosing colonopathy, Fibrosing colonopathy in cystic fibrosis: *current topic*, **464**; *commentary*, **466**
First remission death, Treatment related deaths during induction and in first remission in acute lymphoblastic leukaemia: MRC UKALL X, **101**
Fluorescence in situ hybridisation, Clinical and molecular cytogenetic (FISH) diagnosis of Williams syndrome, **59**
Fluoroquinolone, Effects on growth of single short courses of fluoroquinolones, **44**
Foot pathology, Foot pathology in insulin dependent diabetes: *correspondence*, **368**
Forceps, Is permanent congenital facial palsy caused by birth trauma?, **56**
Formula feeds, Randomised clinical trial of parenteral selenium supplementation in preterm infants, **F158**
Fortifier, Effect of fortifying breast milk on gastric emptying, **F60**
Fragile X syndrome, Fragile X syndrome: *correspondence*, **88**

Gastric emptying, Effect of fortifying breast milk on gastric emptying, **F60**
Genetic factors, Aetiology of bilateral sensorineural hearing impairment in children: a 10 year study, **8**
Geographical area, The role of Epstein-Barr virus in Hodgkin's disease from different geographical areas, **27**
German paediatrics, Dr Eduard Henoch (1820-1910) of Berlin: pioneer of German paediatrics: *perinatal lessons from the past*, **F149**
Glossoptosis, Assessment of pulmonary mechanics and breathing patterns during posturally induced glossoptosis in infants, **512**
Gluten intolerance, Transient gluten intolerance: *correspondence*, **183**
Glycogen storage disease, Uncooked cornstarch – efficacy in type I glycogenosis, **546**
Gonadotrophins, Accelerated pubertal development in patients with shunted hydrocephalus, **490**
Granulocyte colony stimulating factor, Severe combined immunodeficiency (SCID) associated neutropenia: a lesson from monozygotic twins, **340**

Group B streptococcus, Group B streptococcus impairs erythrocyte deformability in neonates more than in adults, **F187**
Growth
Effects on growth of single short courses of fluoroquinolones, **44**
Final height of patients who underwent bone marrow transplantation during childhood, **437**
Nucleotide supplementation and the growth of term small for gestational age infants, **F122**
Nutritional factors and thalassaemia major, **224**
Osteocalcin, growth, and inhaled corticosteroids: a prospective study, **497**
Recombinant human growth hormone treatment in infants with chronic renal failure, **40**
Screening for growth towards 2000: *correspondence*, **183**
Growth velocity, Fetal growth velocity: kinetic, clinical, and biological aspects, **F10**
Guidelines, Paediatricians' knowledge of cardiac arrest guidelines, **47**
Guillain-Barré syndrome, Natural history and treatment effects in Guillain-Barré syndrome: a multicentre study, **281**

Haemangioma, Role of the pulsed dye laser in the management of ulcerated capillary haemangiomas, **161**
Haematuria, Alteration of lung diffusion capacity in IgA nephropathy, **236**
Haemochromatosis, Logarithmic quantitation model using serum ferritin to estimate iron overload in secondary haemochromatosis, **323**
Haemodynamic assessment, Haemodynamic features at presentation in persistent pulmonary hypertension of the newborn and outcome, **F26**
Haemoglobin, Haemoglobin and ferritin concentrations in infants at 8 months of age, **36**
Haemorrhagic shock encephalopathy syndrome, Haemorrhagic shock encephalopathy syndrome presenting with myoglobinuria, **168**
Hay fever, Family structure, neonatal infection, and hay fever in adolescence, **422**
Head circumference, Fetal growth velocity: kinetic, clinical, and biological aspects, **F10**
Head diameters, Fetal growth velocity: kinetic, clinical, and biological aspects, **F10**
Health, Out-of-home day care and health: *current topic*, **73**
Health service use, Cost of care for a geographically determined population of low birthweight infants to age 8-9 years. I. Children without disability, **F114**; II. Children with disability, **F118**
Hearing, Mild impairment of neuro-otological function in early treated congenital hypothyroidism, **215**
Hearing loss, Neonatal otoacoustic emission screening and the identification of deafness, **F16**
Heel prick
Effect of non-sucrose sweet tasting solution on neonatal heel prick response, **F129**
Reduction of pain response in premature infants using introral sucrose, **F126**
Heel skin temperature, Capillary blood sampling: should the heel be warmed? **F139**
Height
Audit of height measurement at age 3 years: results of a survey of Scottish health boards, **332**
Final height of patients who underwent bone marrow transplantation during childhood, **437**
The potential effect of the UK 1990 height centile charts on community growth surveillance, **452**
Helicobacter pylori, Seroepidemiological study of *Helicobacter pylori* infection in infancy, **F141**
Henoch, Eduard, Dr Eduard Henoch (1820-1910) of Berlin: pioneer of German paediatrics: *perinatal lessons from the past*, **F149**
Hepatic cirrhosis, Do children with hepatic cirrhosis complicating cystic fibrosis receive too much pancreatic enzyme? *correspondence*, **88**
Hepatitis, Autoimmune hepatitis: *annotation*, **2**
Hepatitis C, Lymphoblastoid interferon alfa treatment in chronic hepatitis C, **152**
Herpesvirus-6 infections, Human herpesvirus-6 infections: *annotation*, **98**
Heterotopia, Familial bilateral periventricular nodular heterotopia mimics tuberous sclerosis, **244**
High frequency oscillation, Haemodynamic changes during high frequency oscillation for respiratory distress syndrome, **F172**
Hirschprung's disease, Hirschprung's disease: *annotation*, **5**
Histidinaemia, Histidinaemia: a benign metabolic disorder, **343**
HIV
Maternal HIV and drug use: effect on health and social morbidity, **210**
Thalidomide treatment of mucosal ulcerations in HIV infection, **64**
Transmission of tuberculosis to contacts of sputum positive adults in Malawi, **140**
Hodgkin's disease, The role of Epstein-Barr virus in Hodgkin's disease from different geographical areas, **27**
Hospital admission
Evaluation of appropriateness of paediatric admission: *current practice*, **268**
Short stay facilities: the future of efficient paediatric emergency services, **309**
Hospital injury, Non-accidental fracture occurring in hospital: *correspondence*, **89**
Hospital organisation, Patient characteristics affecting attendance at general outpatient clinics, **121**
Human growth hormone
Recombinant human growth hormone treatment in infants with chronic renal failure, **40**
Recruiting patients to clinical trials: lessons from studies of growth hormone treatment in renal failure: *correspondence*, **91**
Human herpesvirus-6 infections, Human herpesvirus-6 infections: *annotation*, **98**
Hydrocephalus, Accelerated pubertal development in patients with shunted hydrocephalus, **490**
21-Hydroxylase deficiency, Endocrinology and auxology of sibships with non-classical congenital adrenal hyperplasia, **406**
17-Hydroxyprogesterone, Endocrinology and auxology of sibships with non-classical congenital adrenal hyperplasia, **406**
Hyper IgM syndrome, CD40 ligand deficiency presenting as unresponsive neutropenia, **458**
Hyperechogenic fetal bowel, Hyperechogenic fetal bowel: *annotation*, **F1**
Hyperimmunoglobulin E, X-linked immune dysregulation, neonatal insulin dependent diabetes, and intractable diarrhoea, **F195**
Hyperinsulinaemic hypoglycaemia
Growth and endocrine function after near total pancreatectomy for hyperinsulinaemic hypoglycaemia, **379**
Ionic control of beta cell function in nesidioblastosis. A possible therapeutic role for calcium channel blockade, **373**
Nesidioblastosis unravelled: *annotation*, **369**
Hypertension, Haemodynamic features at presentation in persistent pulmonary hypertension of the newborn and outcome, **F26**
Hyperthermia, Effect of radiant heat on head temperature gradient in term infants, **F200**
Hypocitraturia, Hypocitraturia in patients with urolithiasis, **350**
Hypogammaglobulinaemia, Treatment of hypogammaglobulinaemia with intravenous immunoglobulin, 1973-93, **527**
Hyponatraemia, Hyponatraemia and dehydration in severe malaria, **201**
Hypothermia, Posthypoxic cooling of neonatal rats provides protection against brain injury, **F3**
Hypothyroidism, Mild impairment of neuro-otological function in early treated congenital hypothyroidism, **215**
Hypoxaemia, Plasma lactate as a predictor of early childhood neurodevelopmental outcome of neonates with severe hypoxaemia requiring extracorporeal membrane oxygenation, **F47**
Ibotenate, Preventing brain damage: *Archivist*, **114**
Ibuprofen, Comparing efficacy and tolerability of ibuprofen and paracetamol in fever, **164**

IgA nephropathy, Alteration of lung diffusion capacity in IgA nephropathy, **236**
IgE, Undetectable IgE responses after respiratory syncytial virus infection, **126**
Imaging, Long term follow up to determine the prognostic value of imaging after urinary tract infections: *correspondence*, **89**
Immune dysregulation, X-linked immune dysregulation, neonatal insulin dependent diabetes, and intractable diarrhoea, **F195**
Immunisation, Vitamin A and immunisation: *Archivist*, **241**
Immunosuppression, Differential cytology of bronchoalveolar lavage fluid in immunosuppressed children with pulmonary infiltrates, **507**
Inappropriate antidiuretic hormone secretion syndrome, Hyponatraemia and dehydration in severe malaria, **201**
Indomethacin, Prophylactic indomethacin: systematic review and meta-analysis, **F81**
Induction death, Treatment related deaths during induction and in first remission in acute lymphoblastic leukaemia: MRC UKALL X, **101**

Infant feeding, Family structure, neonatal infection, and hay fever in adolescence, **422**
Infant length measurements, Infant length measurements: *correspondence*, **184**
Infants, Metabolic rate in febrile infants, **206**
Inflammatory bowel disease
Investigating inflammatory bowel disease – white cell scanning, radiology, and colonoscopy, **22**
The epidemiology of paediatric inflammatory bowel disease, **460**
Inflammatory response, Inflammatory bronchopulmonary response of preterm infants with microbial colonisation of the airways at birth, **F51**
Inhaled corticosteroids, Osteocalcin, growth, and inhaled corticosteroids: a prospective study, **497**
Insulin dependent diabetes mellitus
Family stress and metabolic control in diabetes, **418**
Foot pathology in insulin dependent diabetes: *correspondence*, **368**
X-linked immune dysregulation, neonatal insulin dependent diabetes, and intractable diarrhoea, **F195**
Insulin-like growth factor-1
Growth and endocrine function after near total pancreatectomy for hyperinsulinaemic hypoglycaemia, **379**
Nutritional factors and thalassaemia major, **224**
Intensive care, Impact of extremely immature infants on neonatal services, **F110**
Interferon alfa, Lymphoblastoid interferon alfa treatment in chronic hepatitis C, **152**
Interventions, Intensive interventions in conduct disorders: *current topic*, **352**
Intractable diarrhoea, X-linked immune dysregulation, neonatal insulin dependent diabetes, and intractable diarrhoea, **F195**
Intravenous immunoglobulin, Treatment of hypogammaglobulinaemia with intravenous immunoglobulin, 1973-93, **527**
Intraventricular haemorrhage, Prophylactic indomethacin: systematic review and meta-analysis, **F81**
Iron deficiency, Haemoglobin and ferritin concentrations in infants at 8 months of age, **36**
Iron overload, Logarithmic quantitation model using serum ferritin to estimate iron overload in secondary haemochromatosis, **323**
Ischaemia, Posthypoxic cooling of neonatal rats provides protection against brain injury, **F3**
Isovaleric acidaemia, Cerebral energy metabolism in isovaleric acidaemia, **F211**

Jenner
Dr Edward Jenner (1749-1823) of Berkeley, and vaccination against smallpox: *perinatal lessons from the past*, **F77**
Jenner, romanticism, and research: *annotation*, **1**

Kaposi's sarcoma, Vertical transmission of Kaposi's sarcoma, **455**
Kawasaki disease, Aspirin treatment and increased generation of cysteinyl leukotrienes in Kawasaki disease: *correspondence*, **90**

Labour, Endocrine and metabolic adaptation following caesarean section or vaginal delivery, **F132**
Lactate, Plasma lactate as a predictor of early childhood neurodevelopmental outcome of neonates with severe hypoxaemia requiring extracorporeal membrane oxygenation, **F47**
Laryngotracheobronchitis, Steroids for intubated croup masking airway haemangioma, **66**
Learning, Self directed learning, **357**
Learning difficulties
Fragile X syndrome: *correspondence*, **88**
Predictive value of preschool surveillance in detecting learning difficulties, **517**
Length measurements, Infant length measurements: *correspondence*, **184**
Leukaemia
Lung function after allogeneic bone marrow transplantation for leukaemia or lymphoma, **432**
Treatment related deaths during induction and in first remission in acute lymphoblastic leukaemia: MRC UKALL X, **101**
Life expectancy, Life expectancy in cerebral palsy: *Archivist*, **209**
Life stress, Family stress and metabolic control in diabetes, **418**
Limb pain, Recurrent limb pain in schoolchildren, **336**
Lipid emulsion, Pulmonary vascular resistance during lipid infusion in neonates, **F95**
Liver damage, Autoimmune hepatitis: *annotation*, **2**
Lobectomy, Lung resection in cystic fibrosis patients with localised pulmonary disease, **449**
Low birthweight, Cost of care for a geographically determined population of low birthweight infants to age 8-9 years. I. Children without disability, **F114**; II. Children with disability, **F118**
Lung diffusion capacity, Alteration of lung diffusion capacity in IgA nephropathy, **236**
Lung disease, Chronic lung disease and subsequent respiratory symptoms: *correspondence*, **F151**
Lung function
Lung function after allogeneic bone marrow transplantation for leukaemia or lymphoma, **432**
Respiratory health in a total very low birthweight cohort and their classroom controls, **188**
Lung resection, Lung resection in cystic fibrosis patients with localised pulmonary disease, **449**
Lymphadenopathy, Lymphadenopathy: *correspondence*, **368**
Lymphoma, Lung function after allogeneic bone marrow transplantation for leukaemia or lymphoma, **432**

Magnetic resonance imaging, Abnormal anatomy of the lumbosacral region imaged by magnetic resonance in children with anorectal malformations, **441**
Magnetic resonance spectroscopy, Cerebral energy metabolism in isovaleric acidaemia, **F211**
Malaria
Hyponatraemia and dehydration in severe malaria, **201**
Renal function in acute falciparum malaria, **293**
Malawi, Transmission of tuberculosis to contacts of sputum positive adults in Malawi, **140**
Malaysia, Use of Wigglesworth pathophysiological classification for perinatal mortality in Malaysia, **F56**
Malnutrition, Nutritional factors and thalassaemia major, **224**
Marking, Writing and marking examinations for paediatrics, **469**
Maternal antibody ratios, Meningococcal antibody titres in infants of women immunised with meningococcal polysaccharide vaccine during pregnancy, **F43**
Maternal depression, The effect of a child's disability on mother's mental health, **115**
Maternal HIV, Maternal HIV and drug use: effect on health and social morbidity, **210**
Maternal mortality, Florence Nightingale (1820-1910): maternal mortality and the training of midwives: *perinatal lessons from the past*, **F219**
Maternal seropositivity, Seroepidemiological study of *Helicobacter pylori* infection in infancy, **F141**
Maternal smoking, Recurrent wheezing in very preterm infants, **F165**
Maternal substance abuse, Neonatal withdrawal from maternal volatile substance abuse, **F204**
Medical education, Self directed learning, **357**
Meningococcal polysaccharide vaccine, Meningococcal antibody titres in infants of women immunised with meningococcal polysaccharide vaccine during pregnancy, **F43**
Meningoencephalitis, Cerebrospinal fluid soluble L-selectin (sCD62L) in meningoencephalitis, **288**
Metabolic adaptation, Endocrine and metabolic adaptation following caesarean section or vaginal delivery, **F132**
Metabolic bone disease, Nutritional aspects of metabolic bone disease in the newborn: *current topic*, **F145**
Metabolic rate, Metabolic rate in febrile infants, **206**
5,10-Methylenetetrahydrofolate reductase deficiency, Long term treatment with betaine in methylenetetrahydrofolate reductase deficiency, **239**
Microbial colonisation, Inflammatory bronchopulmonary response of preterm infants with microbial colonisation of the airways at birth, **F51**
Microcirculation, Group B streptococcus impairs erythrocyte deformability in neonates more than in adults, **F187**
Microdeletions
Chromosome 22q11 microdeletions in tetralogy of Fallot, **62**
Clinical and molecular cytogenetic (FISH) diagnosis of Williams syndrome, **59**
Micrognathia, Assessment of pulmonary mechanics and breathing patterns during posturally induced glossoptosis in infants, **512**
Midwives, Florence Nightingale (1820-1910): maternal mortality and the training of midwives: *perinatal lessons from the past*, **F219**
Migraine, Recurrent limb pain in schoolchildren, **336**
Minority ethnic communities, Meeting the needs of minority ethnic communities: *personal view*, **264**
Mitral valve, Role of ECMO in neonatal myocardial infarction, **F143**
Monoclonal IgA gammopathy, Monoclonal IgA gammopathy in a well infant: *correspondence*, **88**

Monozygotic twins, Severe combined immunodeficiency (SCID) associated neutropenia: a lesson from monozygotic twins, **340**
Motor disability, The effect of a child's disability on mother's mental health, **115**
MRC UKALL X, Treatment related deaths during induction and in first remission in acute lymphoblastic leukaemia: MRC UKALL X, **101**
Mucosal ulcerations, Thalidomide treatment of mucosal ulcerations in HIV infection, **64**
Multicystic dysplastic kidney, Alagille's syndrome associated with cystic renal disease, **232**
Multiparametric device (RBC-7), How much coughing is normal?, **531**
Multiple sclerosis, Multiple sclerosis: *Archivist*, **292**
Munchausen syndrome by proxy
Munchausen syndrome by proxy: *correspondence*, **274**
Munchausen syndrome by proxy or factitious illness spectrum disorder of childhood: *correspondence*, **274**
Myocardial infarction, Role of ECMO in neonatal myocardial infarction, **F143**
Myoglobinuria, Haemorrhagic shock encephalopathy syndrome presenting with myoglobinuria, **168**
Myopathy, Sleep studies and supportive ventilatory treatment in patients with congenital muscle disorders, **195**

Neonatal infection, Family structure, neonatal infection, and hay fever in adolescence, **422**
Neonatal intensive care units, CRIB and performance indicators for neonatal intensive care units (NICUs): *correspondence*, **F79**
Neonatal withdrawal, Neonatal withdrawal from maternal volatile substance abuse, **F204**
Nesidioblastosis
Growth and endocrine function after near total pancreatectomy for hyperinsulinaemic hypoglycaemia, **379**
Ionic control of beta cell function in nesidioblastosis. A possible therapeutic role for calcium channel blockade, **373**
Nesidioblastosis unravelled: *annotation*, **369**
Neuro-otological function, Mild impairment of neuro-otological function in early treated congenital hypothyroidism, **215**
Neutropenia
CD40 ligand deficiency presenting as unresponsive neutropenia, **458**
Severe combined immunodeficiency (SCID) associated neutropenia: a lesson from monozygotic twins, **340**
Neutrophil protein, Calprotectin as a marker of inflammation in cystic fibrosis, **136**
Newborn screening, Disclosure of Duchenne muscular dystrophy after newborn screening: *personal practice*, **550**
Nightingale, Florence, Florence Nightingale (1820-1910): maternal mortality and the training of midwives: *perinatal lessons from the past*, **F219**
Nitric oxide, Nitric oxide production in critically ill patients, **482**
Non-accidental fracture, Non-accidental fracture occurring in hospital: *correspondence*, **89**
Non-accidental injury
Estimation of the age of bruising, **53**
Osteogenesis imperfecta, non-accidental injury, and temporary brittle bone disease: *correspondence*, **91**
Nordic countries, Severe aplastic anaemia in the Nordic countries: a population based study of incidence, presentation, course, and outcome, **319**
Nuchal thickening, Antenatal diagnosis of cystic hygroma or nuchal pad – report of 92 cases with follow up of survivors, **F38**
Nucleotides, Nucleotide supplementation and the growth of term small for gestational age infants, **F122**
Nutrition
Nutritional aspects of metabolic bone disease in the newborn: *current topic*, **F145**
Nutritional factors and thalassaemia major, **224**
Nutritional management of cystic fibrosis: *personal practice*, **81**

Oesophageal atresia, Assessment of pulmonary mechanics and breathing patterns during posturally induced glossoptosis in infants, **512**
Ofloxacin, Effects on growth of single short courses of fluoroquinolones, **44**
Omental adhesions, The wandering spleen, **247**
Oral anticoagulation, Oral anticoagulation in paediatric patients: dose requirements and complications, **228**
Osteocalcin, Osteocalcin, growth, and inhaled corticosteroids: a prospective study, **497**
Osteogenesis imperfecta, Osteogenesis imperfecta, non-accidental injury, and temporary brittle bone disease: *correspondence*, **91**
Out-of-home day care, Out-of-home day care and health: *current topic*, **73**
Outpatient clinics, Patient characteristics affecting attendance at general outpatient clinics, **121**
Oximetry, Prediction of early outcome in resolving chronic lung disease of prematurity after discharge from hospital, **304**
Oxygen saturation, High evolutionary theory: *Archivist*, **194**

Paediatric admission, Evaluation of appropriateness of paediatric admission: *current practice*, **268**
Paediatric emergency services, Short stay facilities: the future of efficient paediatric emergency services, **309**
Paediatricians, Continuing medical education for paediatricians, **68**
Paediatrics
Implications of the Calman report on child health and paediatrics: *current topic*, **260**
Writing and marking examinations for paediatrics, **469**
Pain
Capillary blood sampling: should the heel be warmed? **F139**
Reduction of pain response in premature infants using introral sucrose, **F126**
Pancreatectomy, Growth and endocrine function after near total pancreatectomy for hyperinsulinaemic hypoglycaemia, **379**
Pancreatic enzyme, Do children with hepatic cirrhosis complicating cystic fibrosis receive too much pancreatic enzyme? *correspondence*, **88**
Paracetamol, Comparing efficacy and tolerability of ibuprofen and paracetamol in fever, **164**
Parenchymal cyst, Ultrasound findings and clinical antecedents of cerebral palsy in very preterm infants, **F105**
Parenteral nutrition
Pulmonary embolism in parenteral nutrition: *annotation*, **95**
Randomised clinical trial of parenteral selenium supplementation in preterm infants, **F158**
Partial epilepsy, Benign partial epilepsy in infancy, **19**
Patent ductus arteriosus
Early determinants of right and left ventricular output in ventilated preterm infants, **F88**
Prophylactic indomethacin: systematic review and meta-analysis, **F81**
Patient compliance, Patient characteristics affecting attendance at general outpatient clinics, **121**
Penicillamine, Long term survival in Indian childhood cirrhosis treated with D-penicillamine, **32**
Perinatal management, Perinatal management at the lower margin of viability: *current topic*, **F214**
Perinatal mortality, Use of Wigglesworth pathophysiological classification for perinatal mortality in Malaysia, **F56**
Periventricular nodular heterotopia, Familial bilateral periventricular nodular heterotopia mimics tuberous sclerosis, **244**
Persistent pulmonary hypertension, Haemodynamic features at presentation in persistent pulmonary hypertension of the newborn and outcome, **F26**
Pharyngitis, Enteroviral pharyngitis diagnosed by reverse transcriptase-polymerase chain reaction, **462**
Phenotype, X linked agammaglobulinaemia with a 'leaky' phenotype, **548**
Phenylalanine, Factors affecting the variation in plasma phenylalanine in patients with phenylketonuria on diet, **412**
Phenylketonuria
Factors affecting the variation in plasma phenylalanine in patients with phenylketonuria on diet, **412**
Screening for tyrosinaemia type I, **F191**
3-Phosphoglycerate dehydrogenase, 3-Phosphoglycerate dehydrogenase deficiency: an inborn error of serine biosynthesis, **542**
Placental transfer, Meningococcal antibody titres in infants of women immunised with meningococcal polysaccharide vaccine during pregnancy, **F43**
Placental weight, Placental weight, birth measurements, and blood pressure at age 8 years, **538**
Polyarteritis nodosa, Cutaneous polyarteritis nodosa: *correspondence*, **367**
Polymerase chain reaction, Enteroviral pharyngitis diagnosed by reverse transcriptase-polymerase chain reaction, **462**
Polysomnography, Sleep studies and supportive ventilatory treatment in patients with congenital muscle disorders, **195**
Positron emission tomography, Cerebral metabolic rate for glucose during the first six months of life: an FDG positron emission tomography study, **F153**

Prediction, Plasma lactate as a predictor of early childhood neurodevelopmental outcome of neonates with severe hypoxaemia requiring extracorporeal membrane oxygenation, **F47**
Prepubertal growth, Factors affecting prepubertal growth in homozygous sickle cell disease, **502**
Preschool surveillance
Audit of height measurement at age 3 years: results of a survey of Scottish health boards, **332**
Predictive value of preschool surveillance in detecting learning difficulties, **517**
Prevention, Preventing brain damage: *Archivist*, **114**
Prophylaxis, Long term outcome of prophylaxis for febrile convulsions, **13**
Protein substitute, Factors affecting the variation in plasma phenylalanine in patients with phenylketonuria on diet, **412**
Pubertal development, Normal pubertal development in a female with carbohydrate deficient glycoprotein syndrome, **242**
Puberty, Accelerated pubertal development in patients with shunted hydrocephalus, **490**
Pulmonary arteriovenous malformation, Neonatal pulmonary arteriovenous malformation: *correspondence*, **F80**
Pulmonary artery pressure
Changes in pulmonary artery pressure in infants with respiratory distress syndrome after treatment with Exosurf: *correspondence*, **F151**
Indirect estimates of pulmonary artery pressure: *correspondence*, **F79**
Pulmonary embolism, Pulmonary embolism in parenteral nutrition: *annotation*, **95**
Pulmonary hypertension, High evolutionary theory: *Archivist*, **194**
Pulmonary infiltrates, Differential cytology of bronchoalveolar lavage fluid in immunosuppressed children with pulmonary infiltrates, **507**
Pulmonary oedema, Systemic complications associated with bacterial tracheitis, **249**
Pulmonary vascular resistance, Pulmonary vascular resistance during lipid infusion in neonates, **F95**
Pulse oximetry, Uses and abuses of pulse oximetry: *current topic*, **77**
Pulsed dye laser, Role of the pulsed dye laser in the management of ulcerated capillary haemangiomas, **161**

Quality of life
Asthma knowledge attitudes and quality of life in adolescence: *correspondence*, **367**
Perinatal management at the lower margin of viability: *current topic*, **F214**
Quality standards, Audit of height measurement at age 3 years: results of a survey of Scottish health boards, **332**

Radiant heaters, Effect of radiant heat on head temperature gradient in term infants, **F200**
Radiant warmers, Thermal stability of premature infants during routine care under radiant warmers, **F137**
RBC-7, How much coughing is normal?, **531**
Reading, Making reading easier: *personal practice*, **180**
Recombinant human erythropoietin, Factors related to transfusion in very low birthweight infants treated with erythropoietin, **F182**
Recurrent limb pain, Recurrent limb pain in schoolchildren, **336**
Red blood cell deformability, Group B streptococcus impairs erythrocyte deformability in neonates more than in adults, **F187**
Renal failure, Recruiting patients to clinical trials: lessons from studies of growth hormone treatment in renal failure: *correspondence*, **91**
Renal function, Renal function in acute falciparum malaria, **293**
Research, Jenner, romanticism, and research: *annotation*, **1**
Respiration, Breathing, sleep state, and rectal temperature oscillations, **427**
Respiratory distress, Pulmonary vascular resistance during lipid infusion in neonates, **F95**
Respiratory distress syndrome
Changes in pulmonary artery pressure in infants with respiratory distress syndrome after treatment with Exosurf: *correspondence*, **F151**
Failure of early postnatal dexamethasone to prevent chronic lung disease in infants with respiratory distress syndrome, **F33**
Haemodynamic changes during high frequency oscillation for respiratory distress syndrome, **F172**
Indirect estimates of pulmonary artery pressure: *correspondence*, **F79**
Respiratory morbidity, Respiratory health in a total very low birthweight cohort and their classroom controls, **188**
Respiratory symptoms, Chronic lung disease and subsequent respiratory symptoms: *correspondence*, **F151**
Respiratory syncytial virus infection, Undetectable IgE responses after respiratory syncytial virus infection, **126**
Resuscitation, Paediatricians' knowledge of cardiac arrest guidelines, **47**
Reye's syndrome, The changing clinical pattern of Reye's syndrome 1982-1990, **400**
Rhabdomyolysis, Haemorrhagic shock encephalopathy syndrome presenting with myoglobinuria, **168**
Rhinitis, Prevalence and severity of asthma, rhinitis, and eczema in Singapore schoolchildren, **131**
Romanticism, Jenner, romanticism, and research: *annotation*, **1**
Rotavirus immunisation, Rotavirus immunisation: *Archivist*, **313**

Scandinavia, Severe aplastic anaemia in the Nordic countries: a population based study of incidence, presentation, course, and outcome, **319**
Screening
A national survey of screening for congenital dislocation of the hip, **445**
Disclosure of Duchenne muscular dystrophy after newborn screening: *personal practice*, **550**
Longitudinal study of free running exercise challenge: reproducibility, **108**
Neonatal otoacoustic emission screening and the identification of deafness, **F16**
Screening for tyrosinaemia type I, **F191**
Selenium, Randomised clinical trial of parenteral selenium supplementation in preterm infants, **F158**
Self directed learning, Self directed learning, **357**
Sensorineural deafness, Aetiology of bilateral sensorineural hearing impairment in children: a 10 year study, **8**
Sepsis
Diagnosis and clinical associations of zinc depletion following bone marrow transplantation, **328**
Group B streptococcus impairs erythrocyte deformability in neonates more than in adults, **F187**
Nitric oxide production in critically ill patients, **482**
Septic shock, Systemic complications associated with bacterial tracheitis, **249**
Serine, 3-Phosphoglycerate dehydrogenase deficiency: an inborn error of serine biosynthesis, **542**
Severe combined immunodeficiency, Severe combined immunodeficiency (SCID) associated neutropenia: a lesson from monozygotic twins, **340**
Short stature, The potential effect of the UK 1990 height centile charts on community growth surveillance, **452**
Short stay, Short stay facilities: the future of efficient paediatric emergency services, **309**
Sialotransferrins, Normal pubertal development in a female with carbohydrate deficient glycoprotein syndrome, **242**
Sickle cell disease, Factors affecting prepubertal growth in homozygous sickle cell disease, **502**
Singapore schoolchildren, Prevalence and severity of asthma, rhinitis, and eczema in Singapore schoolchildren, **131**
Sleep stages, Breathing, sleep state, and rectal temperature oscillations, **427**
Sleep studies, Sleep studies and supportive ventilatory treatment in patients with congenital muscle disorders, **195**
Small for gestational age, Nucleotide supplementation and the growth of term small for gestational age infants, **F122**
Smoking
Blood pressure and smoking: observations on a national cohort: *correspondence*, **367**
Recurrent wheezing in very preterm infants, **F165**
Smoking and other health related behaviour in the social and environmental context: *current topic*, **176**
Social research, Smoking and other health related behaviour in the social and environmental context: *current topic*, **176**
Social support, Family stress and metabolic control in diabetes, **418**
Soluble L-selectin, Cerebrospinal fluid soluble L-selectin (sCD62L) in meningoencephalitis, **288**
Special education, Cost of care for a geographically determined population of low birthweight infants to age 8-9 years. I. Children without disability, **F114**; II. Children with disability, **F118**
Spleen, The wandering spleen, **247**
Sputum, Sputum induction for the diagnosis of tuberculosis, **535**
Steroids
Failure of early postnatal dexamethasone to prevent chronic lung disease in infants with respiratory distress syndrome, **F33**
Steroids for intubated croup masking airway haemangioma, **66**
Stones, Hypocitraturia in patients with urolithiasis, **350**

Substance abuse, Neonatal withdrawal from maternal volatile substance abuse, **F204**
Sucrose
Effect of non-sucrose sweet tasting solution on neonatal heel prick response, **F129**
Reduction of pain response in premature infants using introral sucrose, **F126**
Sudden death
A study of bereavement care after a sudden and unexpected death, **522**
Breathing, sleep state, and rectal temperature oscillations, **427**
Metabolic rate in febrile infants, **206**
Prediction of early outcome in resolving chronic lung disease of prematurity after discharge from hospital, **304**
Surfactant
Changes in pulmonary artery pressure in infants with respiratory distress syndrome after treatment with Exosurf: *correspondence*, **F151**
Failure of early postnatal dexamethasone to prevent chronic lung disease in infants with respiratory distress syndrome, **F33**
Indirect estimates of pulmonary artery pressure: *correspondence*, **F79**
Sweet-tasting solution, Effect of non-sucrose sweet tasting solution on neonatal heel prick response, **F129**

T cells, CD40 ligand expression on the surface of colostral T cells, **F135**
Tc-HMPAO, Investigating inflammatory bowel disease – white cell scanning, radiology, and colonoscopy, **22**
Temperature
Breathing, sleep state, and rectal temperature oscillations, **427**
Capillary blood sampling: should the heel be warmed? **F139**
Effect of radiant heat on head temperature gradient in term infants, **F200**
Tetralogy of Fallot, Chromosome 22q11 microdeletions in tetralogy of Fallot, **62**
Thalassaemia, Nutritional factors and thalassaemia major, **224**
Thalidomide treatment, Thalidomide treatment of mucosal ulcerations in HIV infection, **64**
Thermal stability, Thermal stability of premature infants during routine care under radiant warmers, **F137**
Thyroid hormones, Endocrine and metabolic adaptation following caesarean section or vaginal delivery, **F132**
Tibet, High evolutionary theory: *Archivist*, **194**
TLCO, Alteration of lung diffusion capacity in IgA nephropathy, **236**
Toledo type brachyolmia, Toledo type brachyolmia: *correspondence*, **184**
Total body electrical conductivity, Standards for total body fat and fat-free mass in infants, **386**
Total parenteral nutrition, Pulmonary vascular resistance during lipid infusion in neonates, **F95**
Tracheitis, Systemic complications associated with bacterial tracheitis, **249**
Tracheobronchial aspirate, Inflammatory bronchopulmonary response of preterm infants with microbial colonisation of the airways at birth, **F51**
Transfusion, Factors related to transfusion in very low birthweight infants treated with erythropoietin, **F182**
Transient evoked otoacoustic emissions, Neonatal otoacoustic emission screening and the identification of deafness, **F16**
Transplantation, Nitric oxide production in critically ill patients, **482**
Trimethoprim-sulphamethoxazole, Are cyclospora an important cause of diarrhoea in Bangladesh? *correspondence*, **90**
Tuberculosis
Sputum induction for the diagnosis of tuberculosis, **535**
Transmission of tuberculosis to contacts of sputum positive adults in Malawi, **140**
Tuberculous meningitis, Does BCG vaccine prevent tuberculous meningitis? **144**
Tuberous sclerosis, Familial bilateral periventricular nodular heterotopia mimics tuberous sclerosis, **244**
Typhoid, Effects on growth of single short courses of fluoroquinolones, **44**

Tyrosinaemia, Screening for tyrosinaemia type I, **F191**

Ulcerative colitis, The epidemiology of paediatric inflammatory bowel disease, **460**
Ultrasound
A national survey of screening for congenital dislocation of the hip, **445**
Alagille's syndrome associated with cystic renal disease, **232**
Ultrasound findings and clinical antecedents of cerebral palsy in very preterm infants, **F105**
Umbilical cord blood, Autologous umbilical cord blood transfusion: *correspondence*, **F221**
Uncooked cornstarch, Uncooked cornstarch – efficacy in type I glycogenosis, **546**
Urinary tract infection
High incidence of urinary tract infection in patients with coeliac disease, **170**
Long term follow up to determine the prognostic value of imaging after urinary tract infections: *correspondence*, **89**
Urogenital malformations, Abnormal anatomy of the lumbosacral region imaged by magnetic resonance in children with anorectal malformations, **441**
Urolithiasis, Hypocitraturia in patients with urolithiasis, **350**

Vaccination, Rotavirus immunisation: *Archivist*, **313**
Vaccine efficacy, Does BCG vaccine prevent tuberculous meningitis? **144**
Ventilation
Early determinants of right and left ventricular output in ventilated preterm infants, **F88**
Impact of extremely immature infants on neonatal services, **F110**
Sleep studies and supportive ventilatory treatment in patients with congenital muscle disorders, **195**
Ventricular output, Early determinants of right and left ventricular output in ventilated preterm infants, **F88**
Ventriculoperitoneal shunt tubing, Expulsion of ventriculoperitoneal shunt tubing: *correspondence*, **184**
Vertical transmission, Vertical transmission of Kaposi's sarcoma, **455**
Very low birthweight
Fungus through the very premature skin: *Archivist*, **349**
Impact of extremely immature infants on neonatal services, **F110**
Prophylactic indomethacin: systematic review and meta-analysis, **F81**
Respiratory health in a total very low birthweight cohort and their classroom controls, **188**
Viability
Impact of extremely immature infants on neonatal services, **F110**
Perinatal management at the lower margin of viability: *current topic*, **F214**
Violence, Violence in children: the scope for prevention: *annotation*, **185**
Viruses, Why do viruses make infants wheeze? *current topic*, **251**
Visual impairment, Vision impairment in Liverpool: prevalence and morbidity, **299**
Vitamin A, Vitamin A and immunisation: *Archivist*, **241**
Vitamins, Low dose colestipol in adolescents with familial hypercholesterolaemia, **157**
Volatile substance abuse, Neonatal withdrawal from maternal volatile substance abuse, **F204**

Wandering spleen, The wandering spleen, **247**
Wheeze, Why do viruses make infants wheeze? *current topic*, **251**
Wheezing in infancy, Recurrent wheezing in very preterm infants, **F165**
Wigglesworth pathophysiological classification, Use of Wigglesworth pathophysiological classification for perinatal mortality in Malaysia, **F56**
Williams syndrome, Clinical and molecular cytogenetic (FISH) diagnosis of Williams syndrome, **59**
Writing, Writing and marking examinations for paediatrics, **469**
X linked, X linked agammaglobulinaemia with a 'leaky' phenotype, **548**
Zinc, Diagnosis and clinical associations of zinc depletion following bone marrow transplantation, **328**
